Summary

- Pursuing training as a full-stack web developer administered by Trilogy Ed Services with U of Pennsylvania.
- Looking to enter the field of software development as a freelancer or on a full-time basis.
- Skills acquired so far: Git, HTML5, CSS3, Javascript (basic, web APIs, jQuery).
- By February 2021, I will be familiarized with the full MERN stack (Node.js, Express.js, React.js, MongoDB).

Experience

Web Developer

UPenn Coding Boot Camp (by Trilogy Education Services)

Aug 2020 - Present (2 months +)

A 6-month, part-time, full-stack coding boot camp is a certificate program that provides a full set of skills required for full-stack programming, using MERN (MongoDB, ExpressJS, ReactJS, NodeJS). The main languages utilized in the course are Git, HTML, CSS, and JavaScript. Throughout the course, projects and assignments will be deployed to GitHub, building up a portfolio to be used for seeking employment upon completion.

Research Specialist

Temple University

Mar 2016 - Present (4 years 7 months +)

The Research Specialist, for the School of Medicine, coordinates all aspects of the research project under the supervision of the Investigator and Project Manager. Responsibilities include subject retention for the PaTH Clinical Data Research Network's clinical cohort studies, ensuring completion of surveys for these cohorts, enrolling subjects in new network studies, collection, documentation, input, and reporting of study data; and maintenance of research logs and databases. In addition, the Research Specialist is responsible for maintaining regulatory compliance, IRB submissions, and communications.

SAT and MCAT Instructor

Kaplan Test Prep

Jul 2015 - Jul 2016 (1 year 1 month)

Provided instruction to SAT and subsequently MCAT students to assist them in preparing to the corresponding standardized tests.

Customer Relations

Kibow Biotech

Sep 2011 - May 2014 (2 years 9 months)

- Addressed customers' inquiries and concerns, maintained the customer database, including the sales statistics, edited the blog "Voices@Kibow"(<http://renadyl.wordpress.com>).
- Worked as part of a marketing team to develop a strategy to increase sales and reach our target population of patients

- Worked as part of a clinical studies operations team that monitored, audited, and provided administrative support to the clinical trials conducted at partner medical institutions. Primary responsibilities included data entry and analysis, writing scientific articles, and performing other tasks as needed.
